

MICROARRAY EXPRESSION DATA Rapid Analysis Service

Fios Genomics Ltd. provides a rapid, reliable expression data analysis service for data derived from all commercial microarray platforms. Achieve biologically insightful results rapidly in a simple, easy to understand format.

Key Benefits

Microarray Platform Independent

Commercially available gene expression arrays for any species: Affymetrix, Illumina, Agilent or Roche NimbleGen

Rapid

You can normally expect to receive your results within 1-2 working days from receipt of raw data

Simple Report Output

QA/QC summary and list(s) of differentially expressed and functionally enriched genes in fully annotated, tab-delimited format

Introductory Discount

Get a 10% discount the first time you use this service, if you complete our survey www.fiosgenomics.co.uk/survey

Loyalty Discount

Get a 10% discount if you use this service again within 3 months

Services Offered

Option	Service	Price per Sample* (excl. VAT)	
		1-12	13-32
1.	Data QA/QC and identification of differentially expressed genes with statistical significance scores	£39.95	£34.95
2.	Data QA/QC, identification of differentially expressed genes plus GO term and functional enrichment analysis, with statistical significance scores	£54.95	£44.95

*Minimum of 4 samples, maximum of 32 samples. If you have more than 32 samples, please contact us. Our Terms of Business apply (www.fiosgenomics.co.uk/terms_RAS.pdf).

Contact us

To find out more about this service, please contact express@fiosgenomics.co.uk or call +44 (0)131 472 4800.

You may also be interested in our bespoke range of added value services that draw on our expertise in experimental design, sophisticated statistics, SNP genotyping, network analysis, genome bioinformatics and pathway biology.
