

Transform Data Into Discoveries

*With Bespoke Bioinformatics Analysis
from Fios Genomics*

Fios Genomics has been supporting scientists, researchers and bioinformaticians in data analysis for over 15 years.

Our team includes bioinformaticians, statisticians, and biologists dedicated to supporting pharmaceutical and biotechnology companies, CROs, and academic institutions in human, animal, plant, and microbial research.

We Provide:

Fast Turnaround
& Rigorous QC

Biological Interpretation
of Analysis Results

Easy-to-Interpret
Data Analysis Reports

Publishing Support
& Figure Preparation

Our Services

Gene Expression
Data Analysis

Genetic Variation
Data Analysis

Epigenetics
Data Analysis

Single-Cell
Data Analysis

Proteomics
Data Analysis

Metabolomics
Data Analysis

Clinical Data
Analysis

Data Mining
& Landscaping

Target Triage
